

Pathways of disease and development, Fall 07

Mid-term assessment

NAME:

First, look back (or recall) your goals (“what I would like to leave with at the end”) from week 1.

1. This is what I like about what I have done so far.

2. This is what I plan to do differently from now on.

3. The most difficult thing for me to do is... and so I need support of the following kind...

4. I need more help from my peers on... and from PT on...

5. Other comments on the course so far -- what you have appreciated and what could be improved (either during the rest of the semester or in future offerings).
